SECONDARY STROKE PREVENTION CLINIC

South East Toronto
Stroke Network

FEWER STROKES. BETTER OUTCOMES.

www.setsn.ca

The Secondary Prevention Clinic is a service that provides assessment of risk factors, speeds up clinical tests, and provides patient and family education through counseling and lifestyle modification.

Clinic Locations (you will be instructed of the location of your appointment when you are booked)

Martin Family Centre
B1 (Ground Level) Queen Wing

St. Michael's Hospital
30 Bond Street

Third Floor, Shuter Wing,

Room 3-001

30 Bond Street,

St. Michael's Hospital

What do I bring with me to the clinic?

Bring all of your medications in their containers from the pharmacy. These include vitamins, minerals, herbal supplements, eye drops and inhalers.

Bring a short written list of all your past surgeries, medical conditions or accidents with you. Include the area of your body involved and the year it happened. The nurse will review this at your appointment.

Bring copies of recent tests such as CT scans and Carotid Dopplers done outside St. Michael's Hospital. This includes paper or copies on CD. You will need to call the private lab or hospital where these tests were done and ask for copies to be made and bring them to your first appointment.

On the day of your clinic visit:

- Have your regular meals before your appointment.
- Take all of your regular medications on the day of your appointment.
- Plan to be at the clinic for 2 to 3 hours.
- Bring one person with you such as a spouse, family member or friend, if you can.
