

Best Practices for Managing Perceptual Impairments Post-Stroke

August 6th 2025

By the end of the workshop participants will:

- Understand the prevalence of perceptual impairments post-stroke and its impact on functional outcomes
- Understand and apply the latest Canadian best practice guidelines for assessing and treating perceptual impairments post-stroke
- Understand the general psychometric properties, interpretation of scores and clinical applicability of screening/assessment tools to evaluate perceptual impairments
- Understand existing gaps in best practices versus actual practices in managing perceptual impairments post-stroke

Date: August 6, 2025

Time: 8:00 am – 4:00 pm

Registration: 8:00 am – 8:30 am

Target Audience: OT, PT, SLP, NP, CNS, APN

Location: Providence Healthcare
3276 St. Clair Ave. East,
Toronto, Ontario, M1L 1W1
Rm C 301 & 302

ANITA MENON, PhD, OT/erg.
McGill University

Best Practices for Managing Perceptual Impairments Post-Stroke

Workshop Schedule - August 6, 2025 8:30 AM - 4:00 PM <i>Registration begins at 8:00 AM</i>	
8:00-8:30	Registration
8:30-8:45	Introduction
8:45-9:15	Visual Perception (VP): Pathophysiology, Prevalence, and Impact
9:15-9:45	Unilateral Spatial Neglect (USN): Pathophysiology, Prevalence, and Impact
9:45-10:00	Role of Interdisciplinary Team
10:00-10:15	Break
10:15-10:30	Canadian Best Practice Guidelines Related to VP/USN Management
10:30-11:00	Practice Gaps Related to VP/USN, Barriers and Facilitators Related to VP/USN Management
11:00-12:00	Evidence-based Screening/Assessment Tools for VP/USN
12:00-12:30	Lunch
12:30- 1:30	Hands-On Activities
1:30-3:30	Implementing Best Practices for VP/USN Assessment and Treatment
3:30-4:00	Wrap-up Discussion/Questions

Please note: Agenda is subject to change without notice.
