

The Northwestern Ontario Regional Stroke Network Presents:

# Provincial Stroke Rounds

## Dr. Alvarado Bolaños MD

Dr. Alvarado-Bolaños graduated from the National Institute of Neurology and Neurosurgery in Mexico City, where he honed his skills in neurology. Following this, he completed a two-year fellowship in Stroke Neurology at Western University in London, Ontario, along with completing further specialization in Neurovascular Therapy through The Charles G. Drake Clinical Fellowship.

## Post Endovascular Thrombectomy Care: Evidence, Practice and Evolving Challenges

**Wednesday February 4, 2026, 0800-0900 EST**

**Objectives:** Upon completion participants will be able to:

1. Identify key patient, procedural and systems-level factors that influence outcomes after endovascular thrombectomy.
2. Apply current evidence and Canadian Stroke Best Practice-aligned principles to post-EVT-management.
3. Recognize common and high-risk post EVT complications.
